ORIGINALLY DERIVED FROM GERMANY

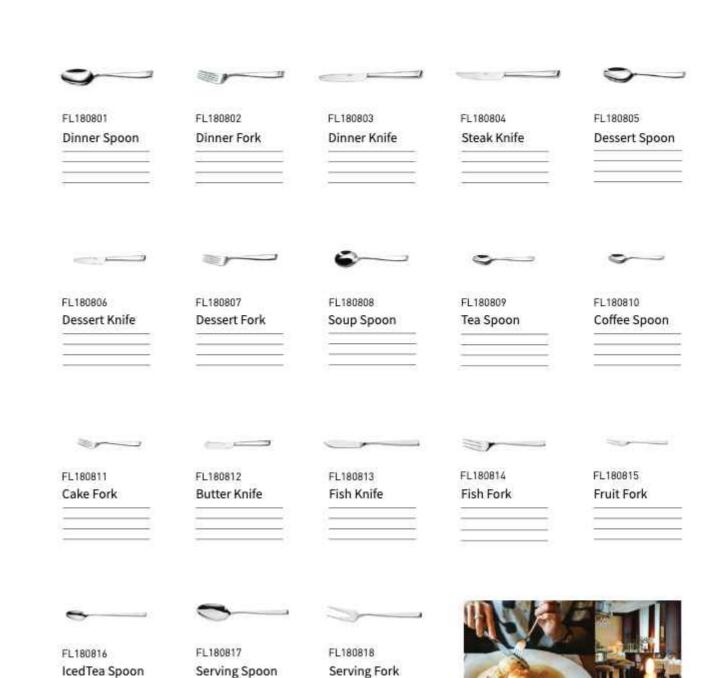

Originated from European classical design style, combining three-dimensional square with tableware, it not only retains the original romantic feelings, but also integrates the beauty of China with the sense of visual impact.

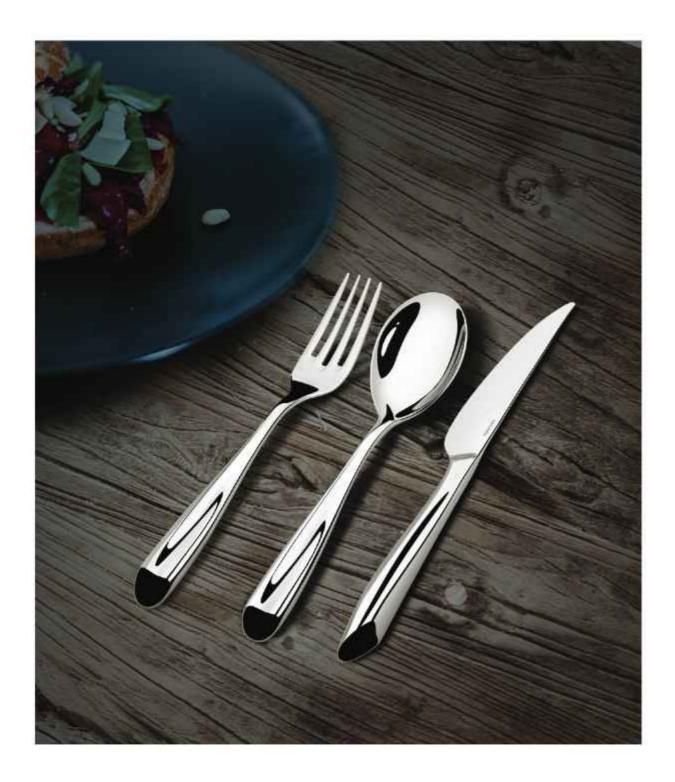

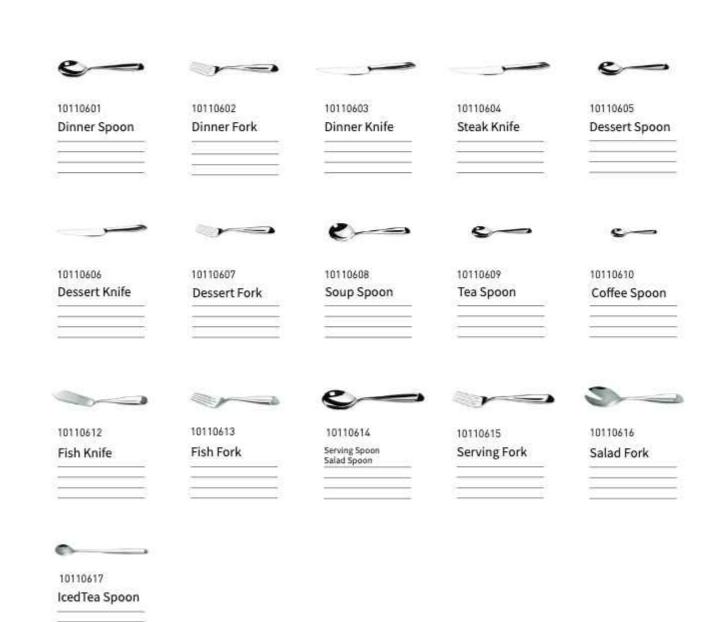

Their grips are powerful and smooth, with beautiful lines, which display handsome, manly features. The pommels are slanted, uniquely cast. They are filled with a deep message, perfect for an elegant man to express his emotions to his love. They embody the emotional needs that people have in their modern lives.

12 TRENDY ELEGANCE TASTE 13

Draw lessons from the style of a great Germany designer Luigi Colani's work, my world is round and scattered into the Chinese traditional culture and wisdom contained in the historical circle, in combination with the elegance of the ancient silk and dancing, to reflect the perfection of the circular tableware, integrity and unity, in the natural and graceful, elegant aesthetic feeling of Platees.

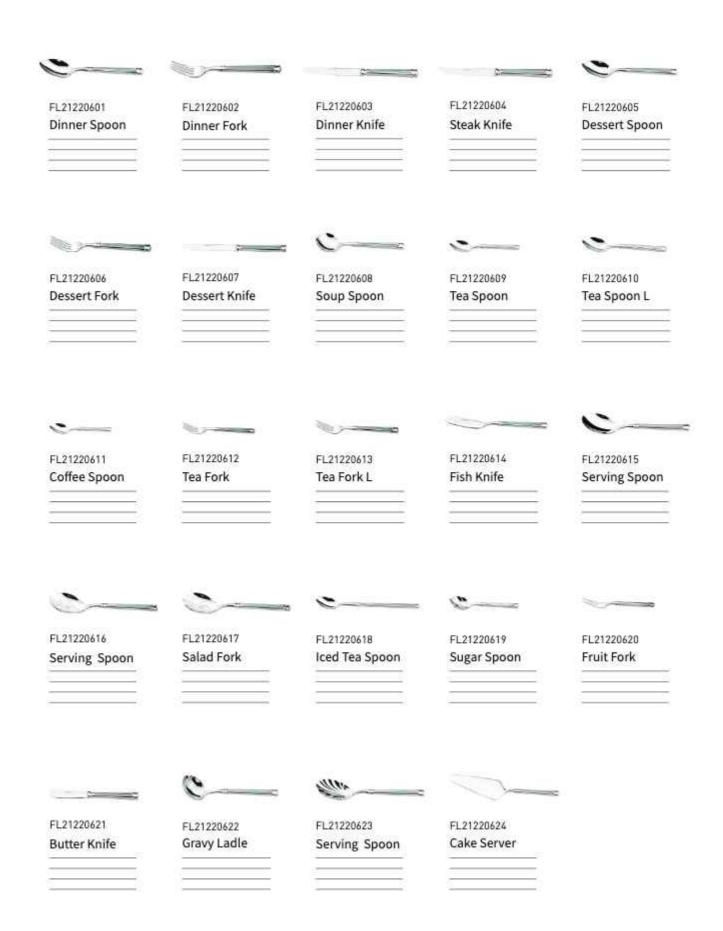

Borrowing the ideas from the ancient Roman column, the special lines of the Doric pillar mix and match the modern technology and the design of ancient Roman architecture, showing the vigorous and ancient civilian design and bringing the unique classic back to life.

PRINCESS

Slender and exquisite line with simple shape is easy and light for use and gives people a visual enjoyment of gentle. The whole design integrates gentle beauty of female, just like a pretty princess who can always rouse people's infinite imagination. It fully shows the Italian romanticism.

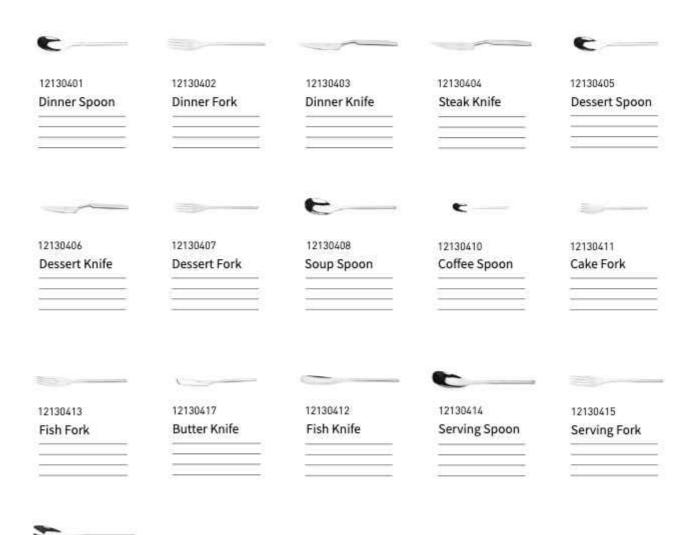

By adapting the ultramodern design thoughts of Square Angle, the series have sharp in shape just like an ail-armed knighet.It's full of strength with its neck in 15° angles which enable the hands to press,cut and eat.
